

SCIENCE LEARNING EXPERIENCE

TITLE PAGE

KNOWLEDGE HARVEST

(could include an introduction to the topic)

TEACHING

Lessons throughout a topic should include a range of these types of enquiry. A whole topic should not cover only one type of enquiry. Different topics will lend themselves better to different types of enquiry so it may not be appropriate to cover all within a single topic. All topics should contain at least one element of research using secondary sources in order to demonstrate reading for purpose.

RESEARCH USING SECONDARY SOURCES

(reading for purpose)

OBSERVING CHANGES OVER TIME

NOTICING PATTERNS

Identifying, classifying & grouping

GROUPING AND CLASSIFYING

COMPARATIVE OR FAIR TESTS

ADDITIONAL ASPECTS THAT SHOULD BE INCLUDED

- Include an educational visits or visitors.
- Include links to specific jobs/careers that use the science you are studying.
- Include links to sustainability.
- Include links to specific scientists

KNOWLEDGE REVIEW
